INTRODUCTION

01

Introduction

Northstar Advisory is a strategic business consultancy that partners with founders and executive teams to convert ambiguity into structured, executable growth plans. The firm specialises in business restructuring, operating model design, and scale-readiness for companies moving from early traction to sustainable growth.

BRAND STRAEGY & FOUNDATION

02

Our Story

Northstar was founded on the belief that most businesses don't fail from a lack of ambition. They fail from a lack of direction. Where other consultancies sell frameworks, Northstar builds a working system: a clear plan, a scalable structure, and a way to measure progress against it.

Our Mission

To give growing businesses the clarity, structure, and confidence to scale without losing what made them work in the first place.

Our Vision

A future where every ambitious business, regardless of size, has access to the same calibre of strategic counsel once reserved for large corporations.

OUR STRATEGY

03

Our Positioning

Northstar Advisory is the strategic partner for founders who have outgrown instinct-led decision-making and need a defensible, data-informed plan to scale.

Market Positioning

Positioned above generalist freelance consultants and below the "Big Four" / MBB tier — a boutique alternative offering senior-level strategic thinking without enterprise overhead or six-month engagements.

Unique Value Proposition

Enterprise-calibre strategic thinking, delivered at startup speed and startup pricing.

Target Audience

Founders and leadership teams of growth-stage startups and SMEs (typically 10–250 employees), usually post-seed / Series A or established SMEs entering a new growth phase, operating in competitive or fast-changing markets.

Competitive Differentiation

Northstar doesn't leave clients with a slide deck; it leaves them with a system — an operating structure, a growth roadmap, and the internal capability to run it.

Customer Perception (Goal)

“They immediately understood our business better than we could explain it — and gave us a plan we could actually execute.”

Brand Values

We turn complexity into a plan you can act on this quarter.

Personality

The trusted senior advisor — composed, precise, direct, quietly confident. Speaks like someone who has seen the pattern before and can shortcut you to the right answer.

Clarity

make the complex simple

Structure

build systems that scale

Evidence

decisions backed by data, not opinion

Partnership

embedded, not detached

TONE OF VOICE

04

Tone Of Voice

Communication Personality

The senior advisor in the room — calm, precise, never condescending. Talks with clients, not down to them.

Writing Principles

— Lead with the point, then support it
— One idea per sentence
— Cut qualifiers — “very,” “really,” “just”
— Prefer verbs over noun-stacking (“we simplify,” not “we provide simplification services”)

Vocabulary

Use: plan, structure, clarity, system, roadmap, evidence, scale, direction. Avoid: synergy, disrupt, leverage (as a verb), game-changing, revolutionary.

Patterns

Short, declarative, benefit-first. Example: “A plan you can run this quarter.” / “Structure that scales with you.”

—Do use full stops over exclamation marks

—Do name the client's problem before the solution

—Don't use hype language

—Don't use more than one adjective per noun

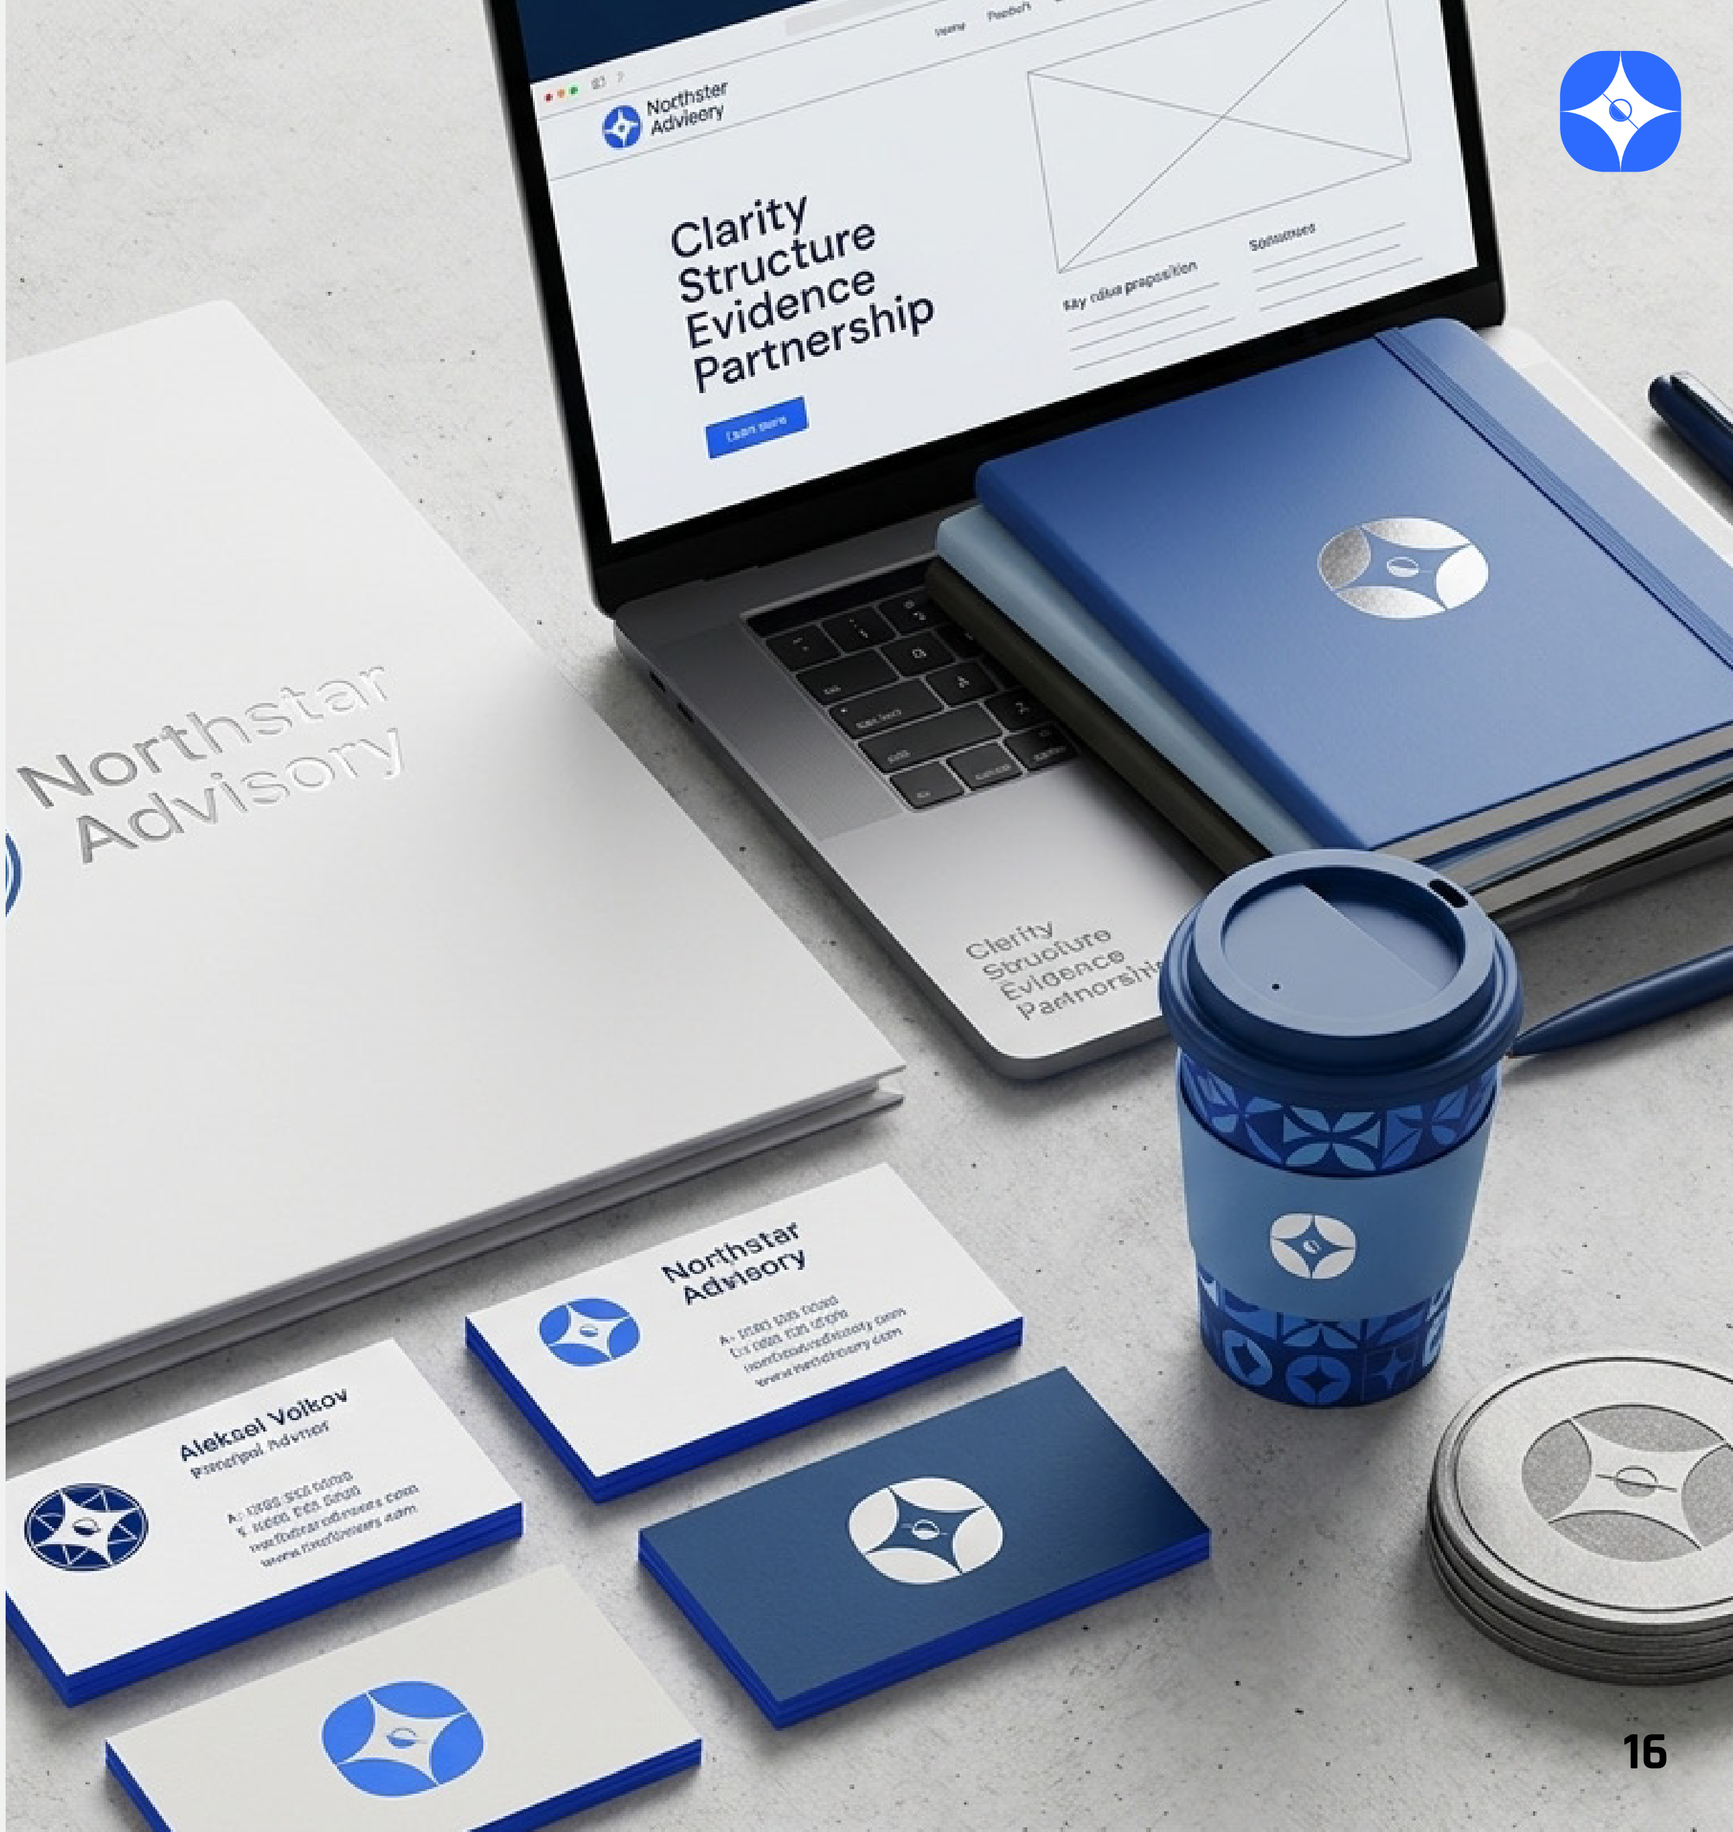

Example Messaging

— Homepage headline: “Clarity in complexity.”
— Subhead: “Northstar Advisory helps growing businesses turn ambition into an executable plan.”
— CTA: “Book a strategy call”

VISUAL IDENTITY

05

Visual Overview

LOGO SYSTEM & WORDMARK

06

Primary Logo

Wordmark “Northstar Advisory” paired with an abstract directional mark — a minimal multi-point star form built from geometric line segments, suggesting direction and orientation without becoming a literal compass icon.

Northstar Advisory

Secondary Logo

Stacked lockup (mark above wordmark), used for square and social applications where a horizontal lockup won't fit.

Northstar Advisory

Logomark

The standalone directional star mark. Used only once brand recognition is established — social avatars, favicon, merchandise.

Wordmark

“Northstar Advisory” set in Manrope Bold, tracked +2%. Used alone in tight horizontal spaces such as email signatures and narrow headers.

Northstar Advisory

Northstar Advisory

Northstar Advisory

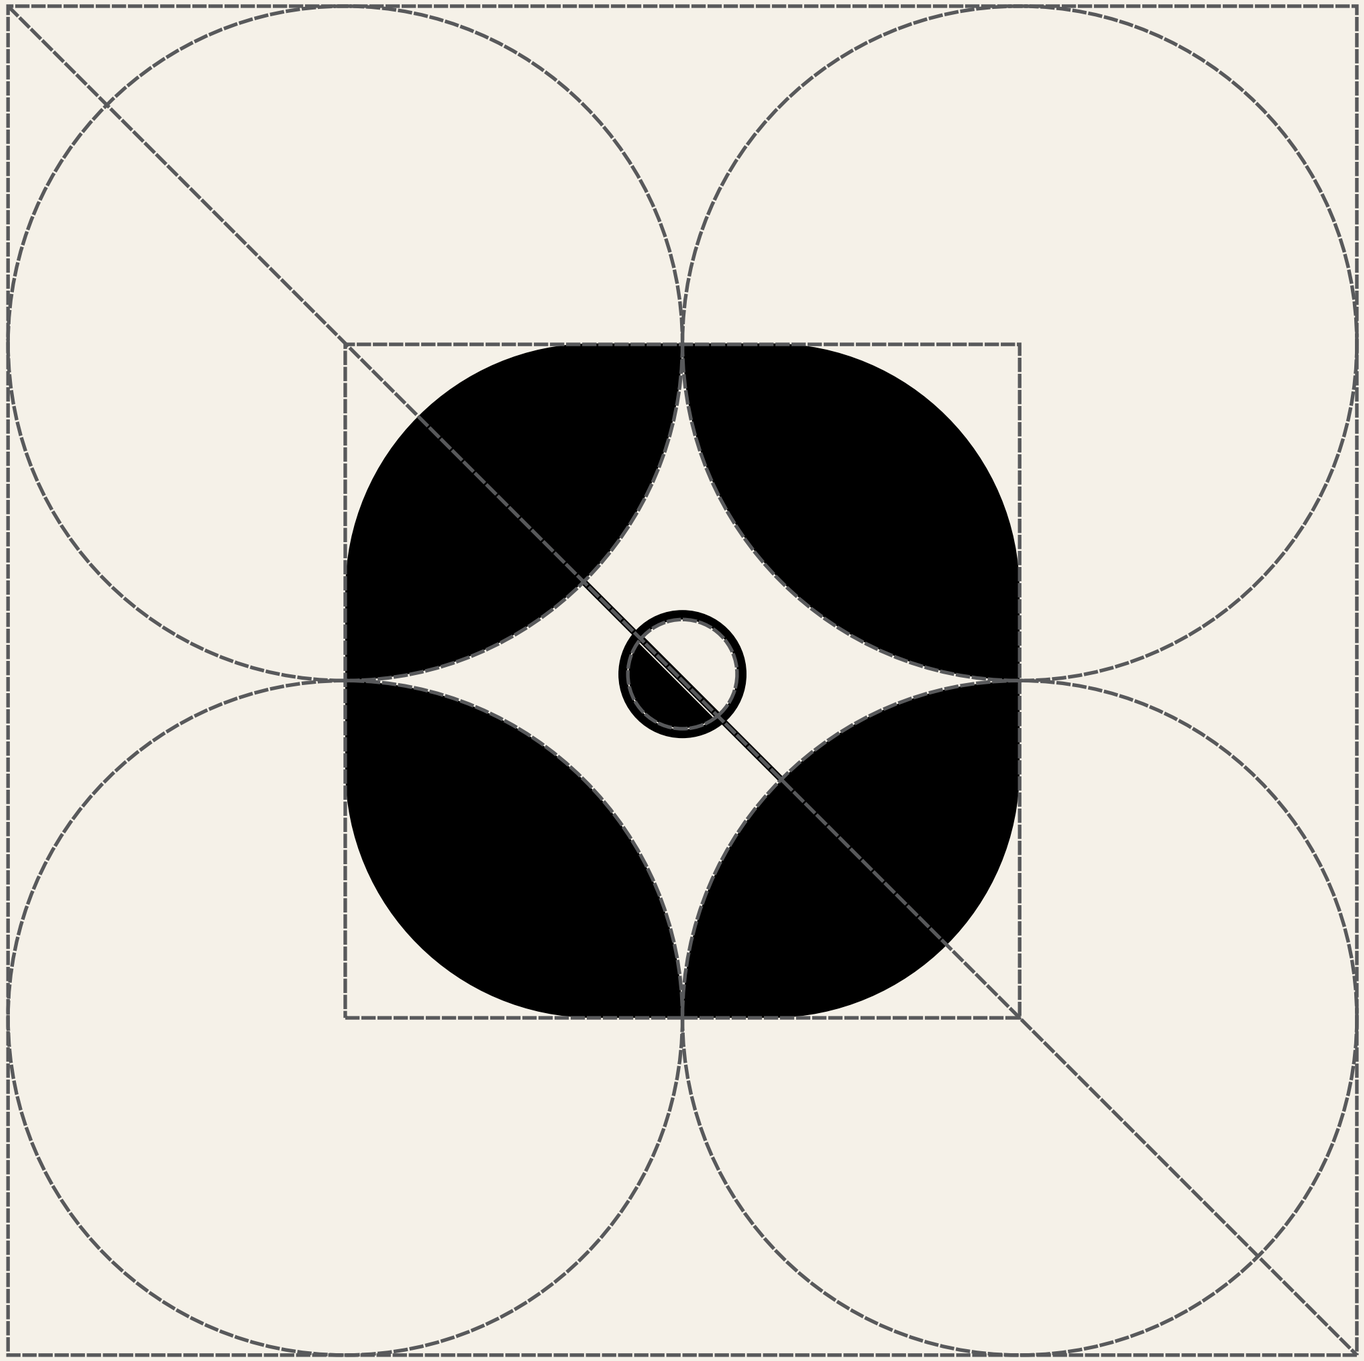

Northstar
Advisory

Northstar
Advisory

Northstar
Advisory

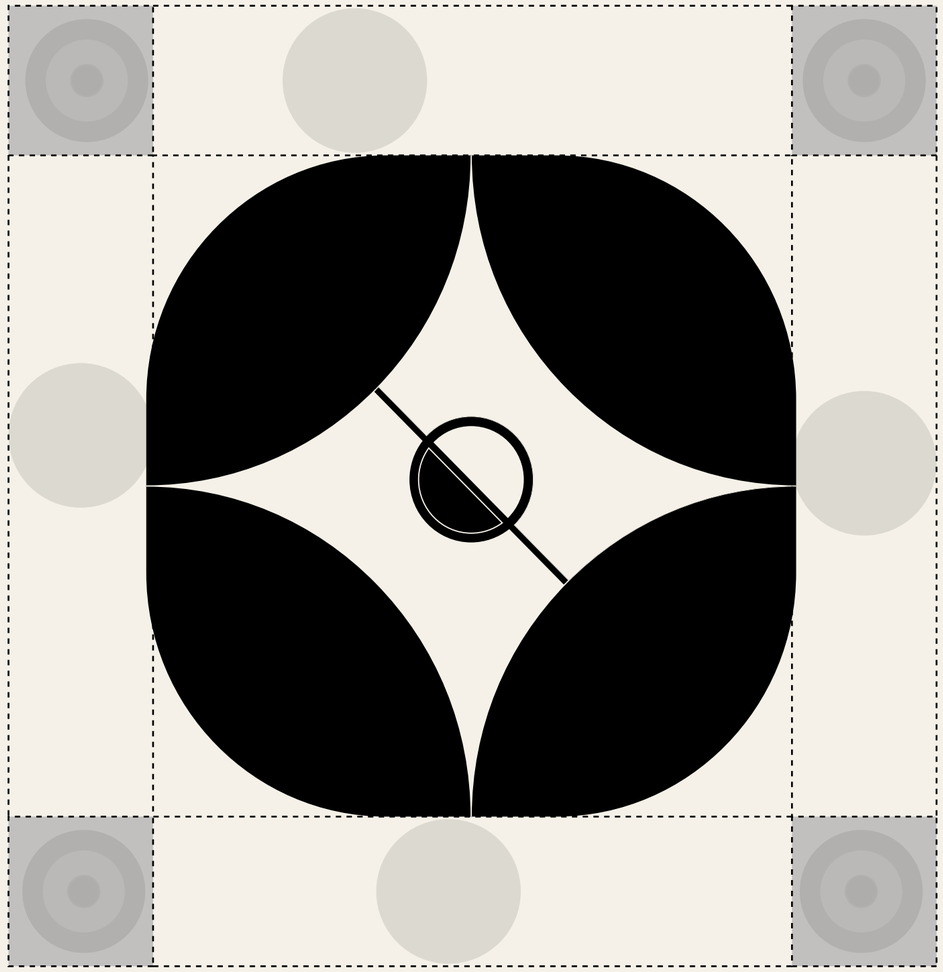

Logo Construction

Mark height equals the cap-height of the wordmark. The mark sits on the same baseline as the wordmark. Spacing between mark and wordmark equals the width of the mark's negative-space core.

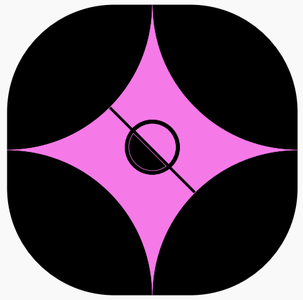

Clearspace

Minimum clear space on all sides equals the height of the logomark. No text, imagery, or container edge may enter this zone.

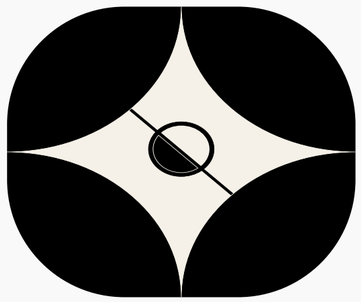

Missuse Of Logo

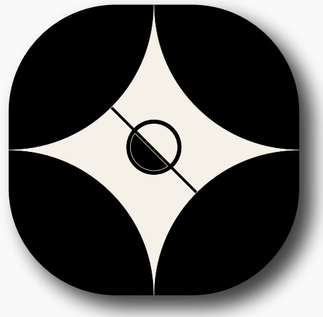

On Deep Navy, Warm Ivory, or white backgrounds only. Full-colour or single-colour (all-navy or all-ivory) versions only.

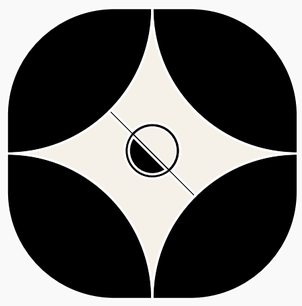

DO NOT recolour outside the approved palette

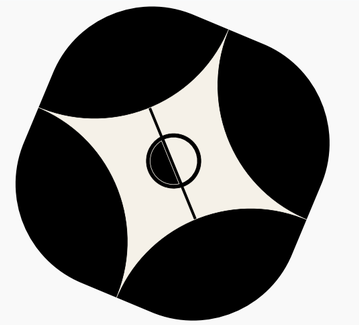

DO NOT stretch, distort, or rotate the lockup

DO NOT add drop shadows

DO NOT add outlines

DO NOT change the logo composition

Northstar
Advisory

DO NOT recreate the wordmark in another typeface

DO NOT blur the logo

COLOUR PALETTE

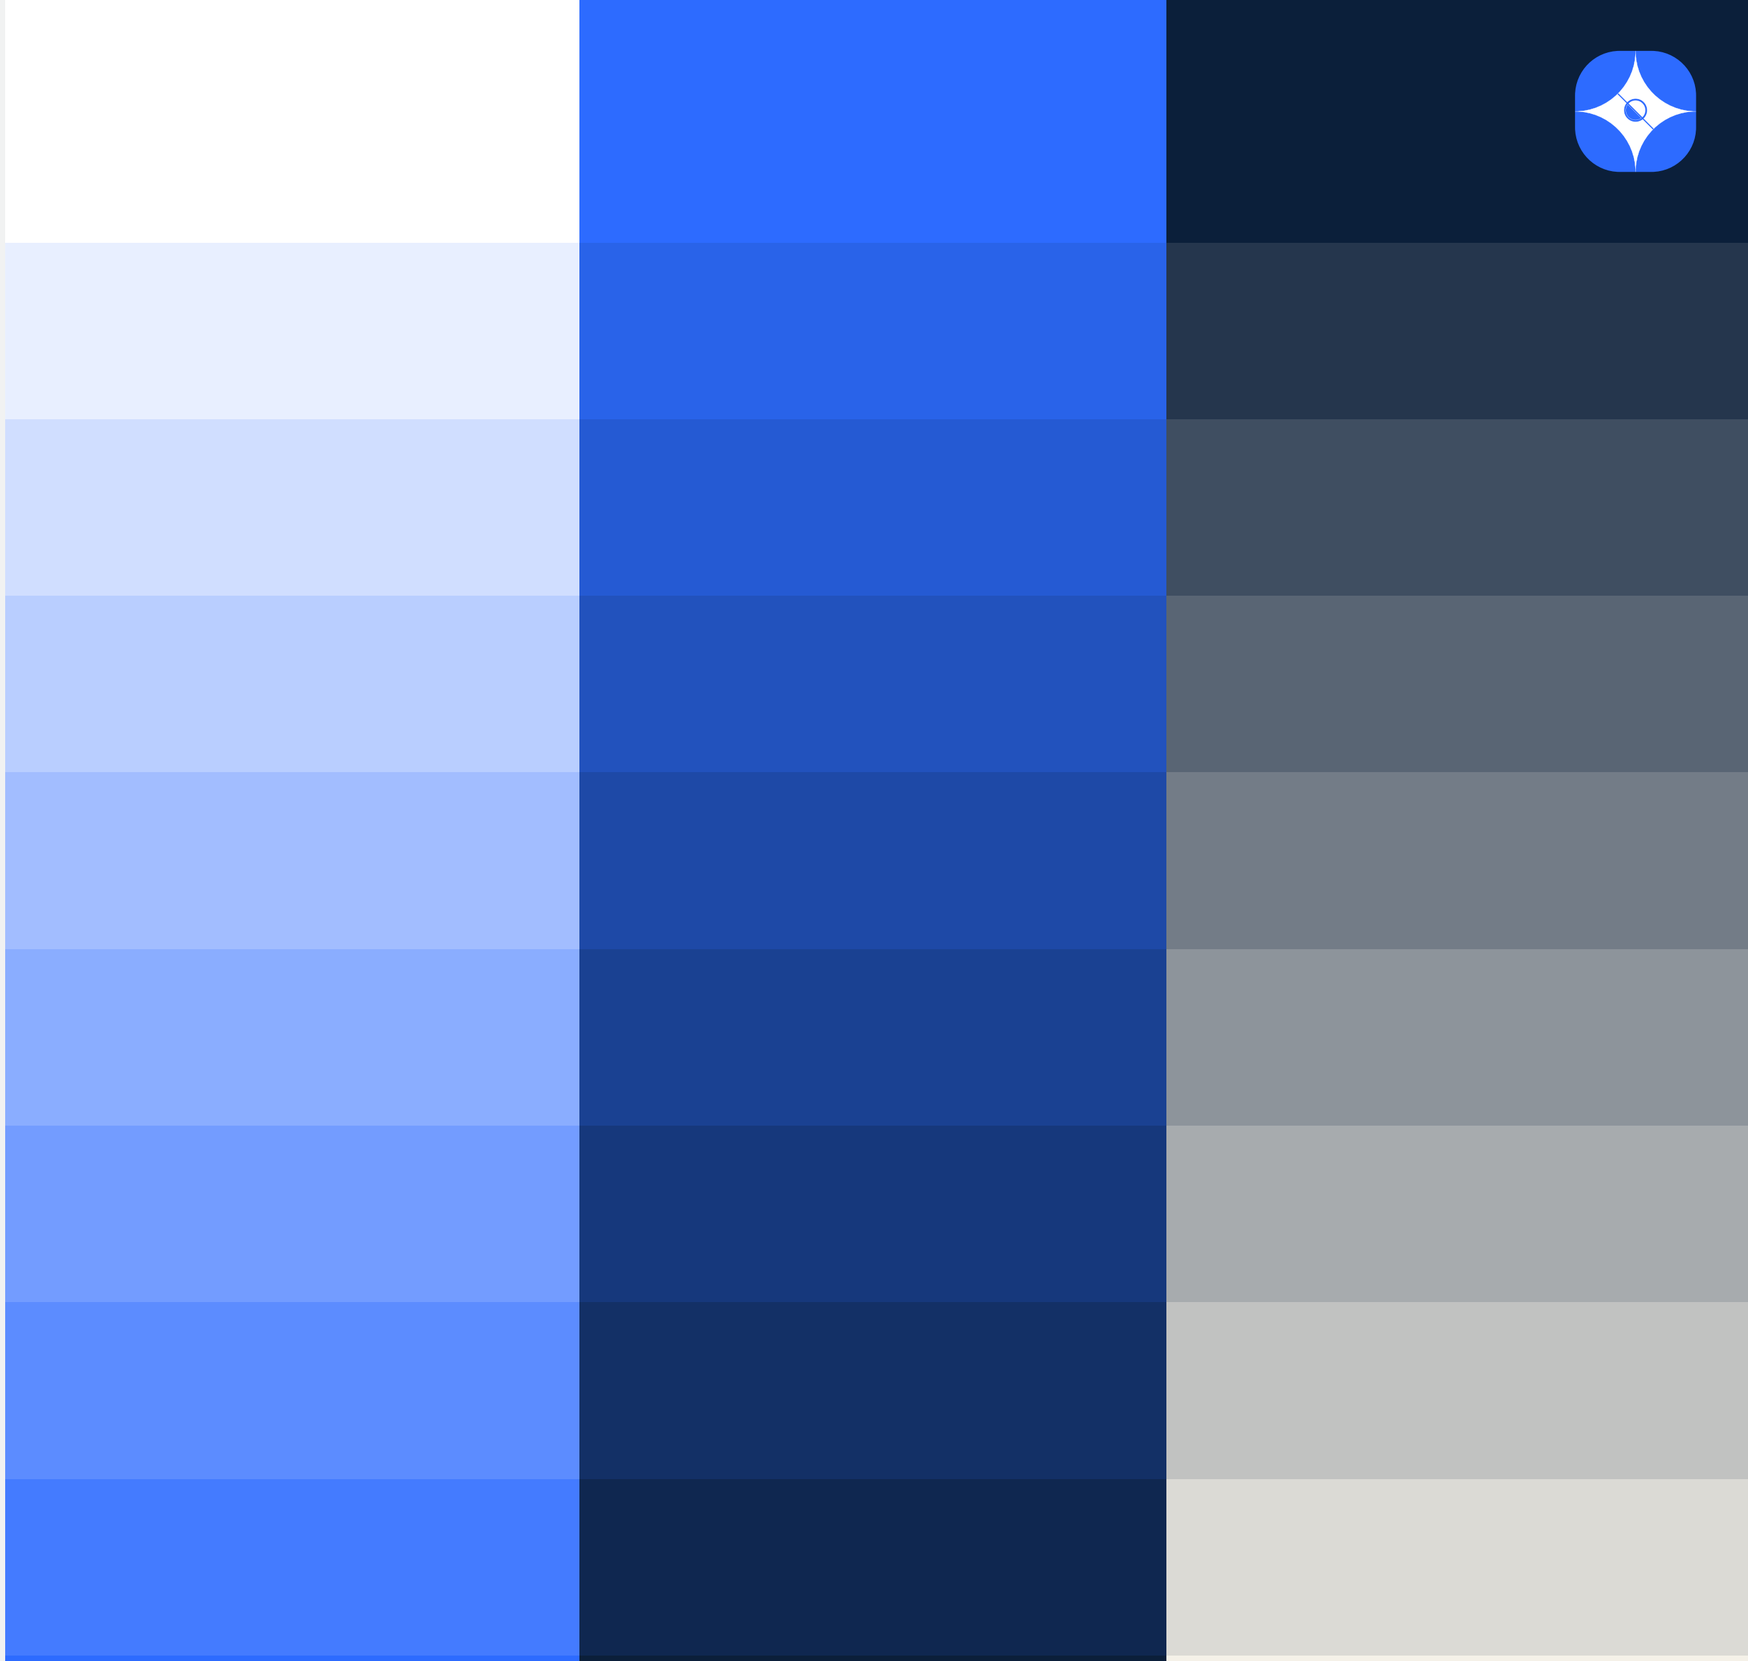

07

Colour Ratio

Guide ratio across brand applications: 60% Deep Navy, 30% Warm Ivory, 10% Electric Blue.

Accessibility

Navy-on-Ivory and Ivory-on-Navy both exceed WCAG AA contrast (7:1+). Electric Blue text is reserved for large headline sizes (24px+) or button fills paired with white/ivory text — never used as small body copy on Ivory.

Electric Blue
HEX #2D6BFF
RGB 45 / 107 / 255
CMYK 82 / 58 / 0 / 0

Deep Navy
HEX #0B1F3A
RGB 11 / 31 / 58
CMYK 92 / 73 / 33 / 24

Warm Ivory
HEX #F5F1E8
RGB 245 / 241 / 232
CMYK 3 / 3 / 9 / 0

Weights & Hierarchy

— H1 — Manrope Bold, 40–56px
— H2 — Manrope SemiBold, 28–32px
— H3 — Manrope Medium, 20–22px
— Body — DM Sans Regular, 16–18px
— Caption — DM Sans Medium, 12–13px, +4% tracking

Paragraph Rules

— Max line length: 70–80 characters
— Left-aligned only — never justified
— One idea per paragraph
— Electric Blue reserved for a single emphasised word or figure per section, never full sentences

DM Sans

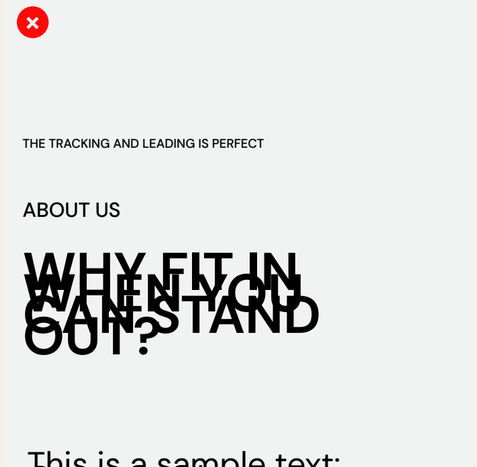

Digital Usage

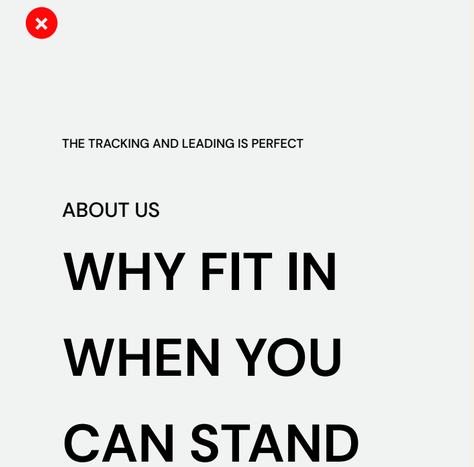

Manrope for UI, navigation, and headlines; DM Sans for body and long paragraphs. Fallback stack: Manrope Inter sans-serif; DM Sans Arial sans-serif.

Print Usage

Same pairing throughout. Body copy no smaller than 10.5pt in printed proposals. Headline tracking reduced by 1% at large formats to avoid a gappy appearance.

BRAND ASSETS

09

Brand Pattern

Shapes

The directional star motif fragments into minimal line-based geometric marks (triangles, chevrons, thin diagonal strokes), used as section dividers and data call-outs — never purely decorative.

Lines

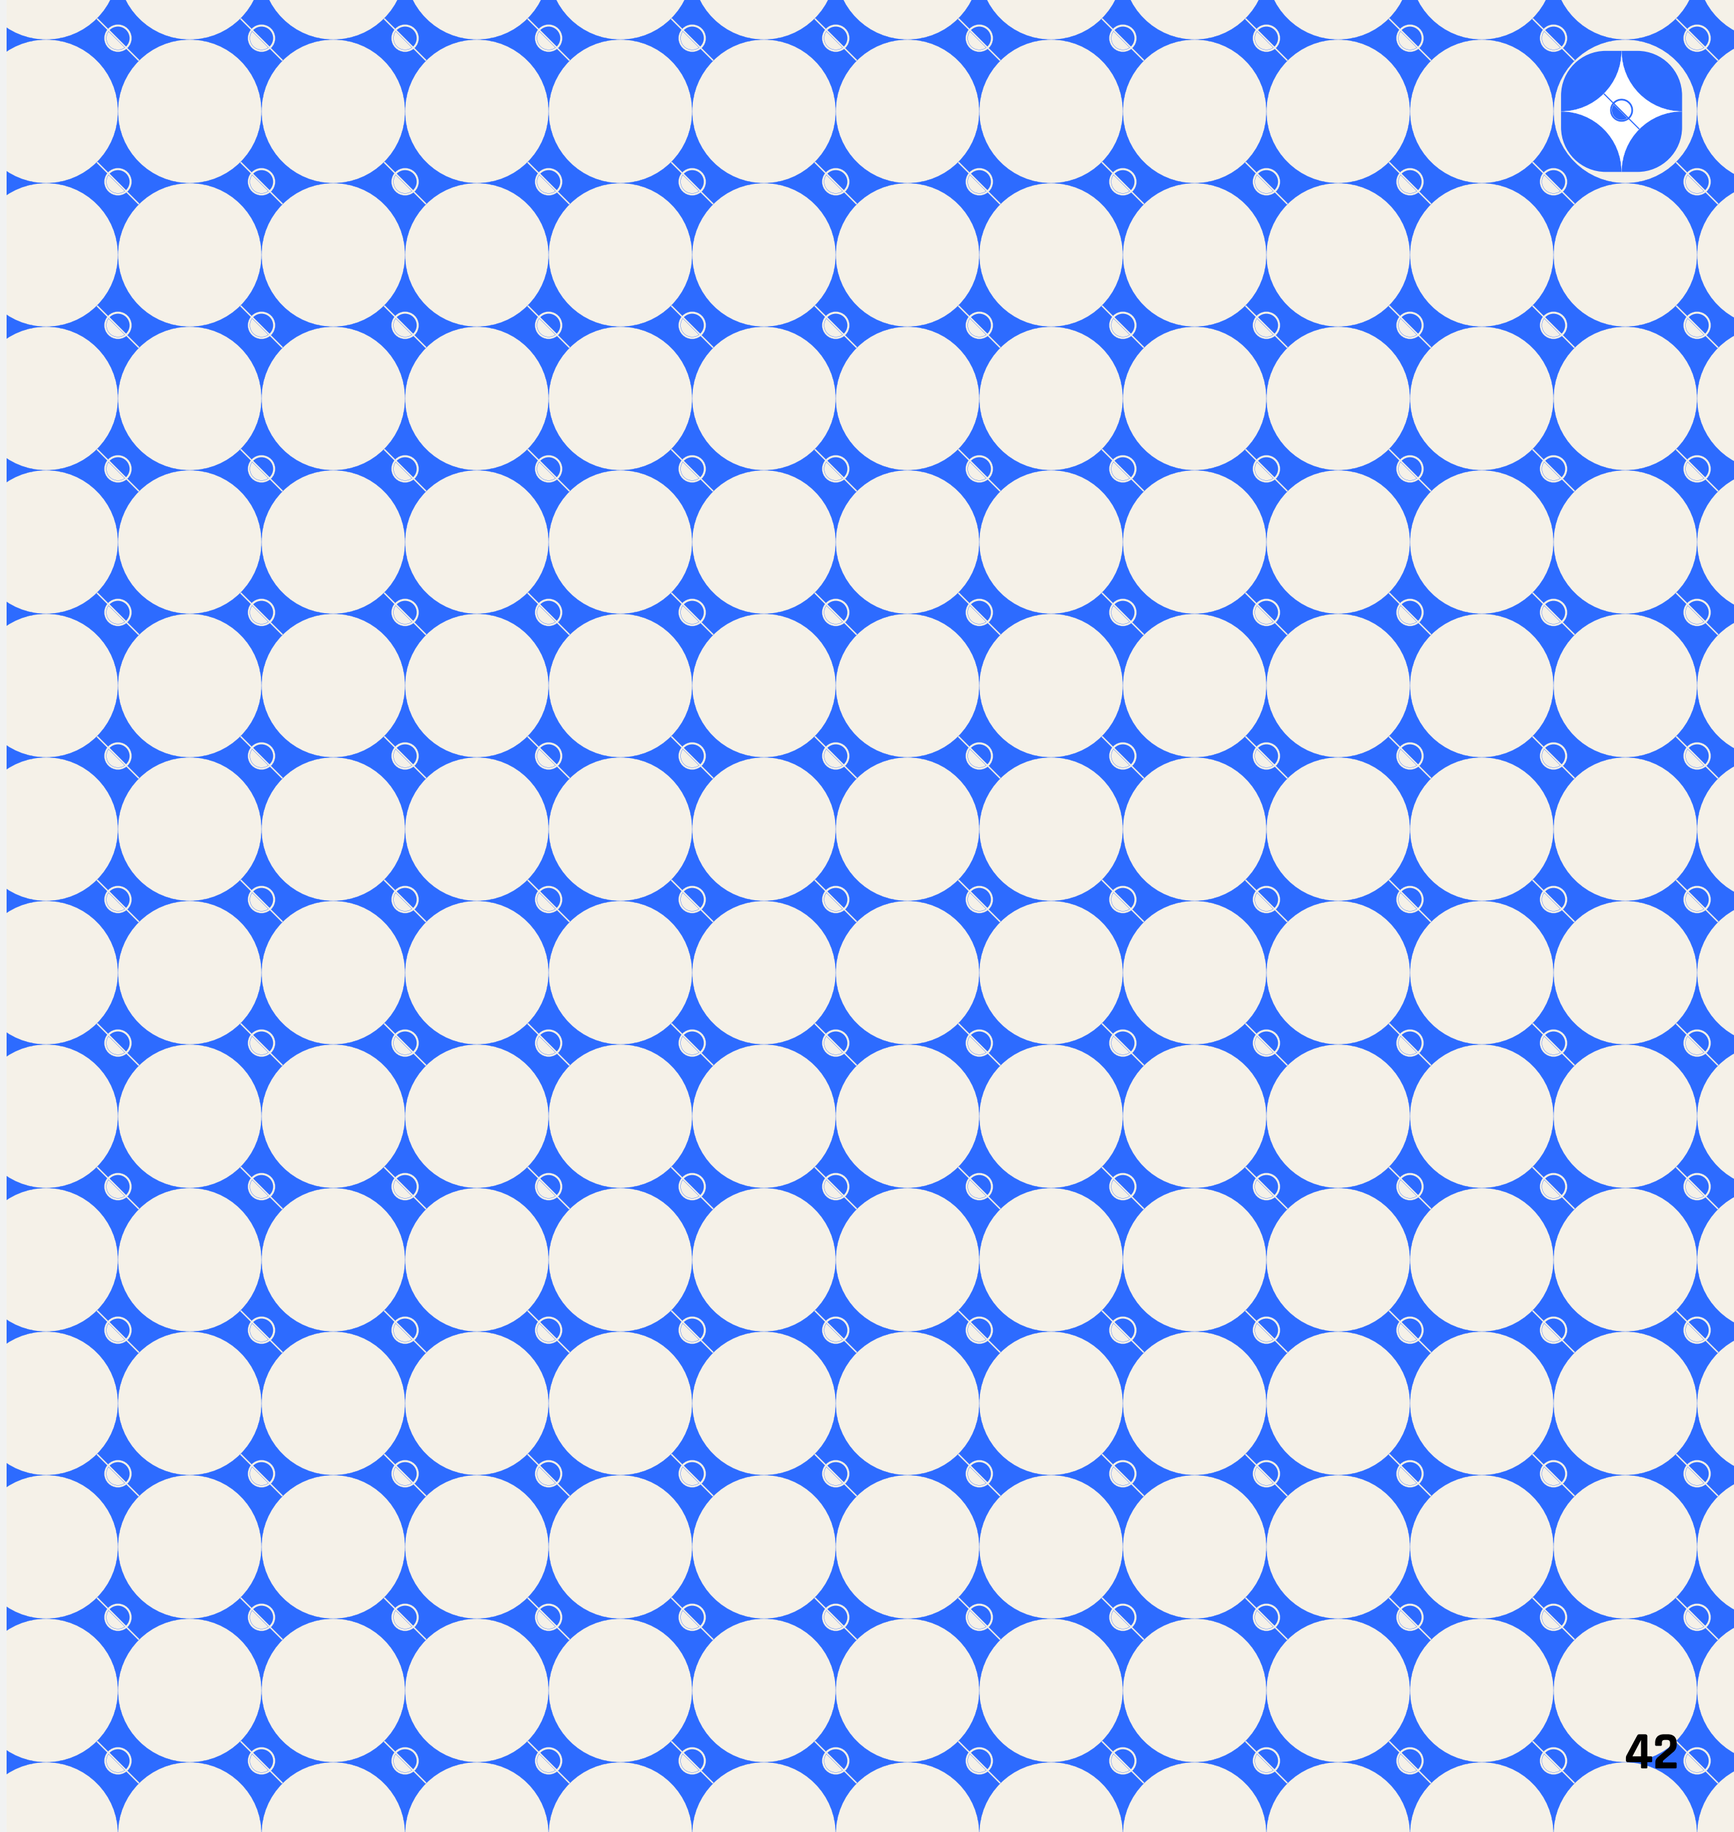

1px hairlines in 20% Navy for structural dividers. 2px solid Electric Blue lines to underline key statistics or section breaks.

Grids

12-column grid with generous margins (min. 64px desktop / 5% print) and strict alignment. The brand should read as engineered, never loose.

Patterns

A subtle dot-grid (a navigational / coordinate reference) at 100% opacity, used as background texture on cover pages only — never behind body text.

Brand Pattern

Containers

Sharp-cornered rectangles (0–2px radius) for cards and data tables, reinforcing precision and structure.

Dividers

Thin horizontal hairlines with a single Electric Blue tick mark at the left edge.

Iconography

Line icons only, 1.5px stroke weight, rounded caps, in Navy or Ivory depending on background. Never use filled or solid icon sets.

Image Treatment

A duotone overlay (Navy shadow / Ivory highlight) applied to all photography for visual consistency across sources.

Supporting Graphics

Simple line and bar charts in Navy and Electric Blue only, minimal gridlines, always data-forward rather than decorative.
